

Why to take admission @ UVPCE?

1. One of the oldest institute of Gujarat (Estd. 1997):

Being one of oldest institute clearly proves its inclination towards education. There are so many graduates already passout from the institute, ensures a good reputation in the industry. Our students are also at a higher position in many industries and some of them are entrepreneur also, which helps in very good placement of the current students.

2. Approved by UGC 2(f), AICTE and AIU, New Delhi:

The high-tech education campus of Ganpat Vidyanagar is set in serene and natural surroundings of rural beauty. The campus has been conferred the status of University by the Government of Gujarat vide its notification No: GH/SH/6/GUA/2005/1194/KH-1. The University Grant Commission (UGC) has also granted approval to Ganpat University with effect from 05.02.2007 under section 2(f), and the University is a member of AIU, New Delhi.

3. Qualified faculty (M.E/M.Tech.) for teaching in B.Tech. as per norms:

Almost all the teaching staff, teaching in B.Tech. courses are having their master degree in the respective branches. Many of them are also pursuing Ph.D. degree.

4. Enough teaching and supporting staff:

As per the AICTE norms the institute also maintains the staff/student ratio **1:15** for all its courses. This ration ensures the regular teaching and timely completion of syllabus in all subjects.

5. Experienced teaching and supporting staff:

Because of the institute policy to pay as per norms to the teaching and supporting staff, it has got well experienced and dedicated staff. Most of the teaching faculty in all courses are having atleast **3 years** experience (which is a very good score as per AICTE) and many of them are having **5 years** and some of them are also having more that **7-8 years** experience.

6. Regular teaching (min. 90 days/semester):

The institute gives enough emphasis on regular teaching work, So that covering full syllabus and timely completion of syllabus in all the subjects.

7. Online attendance monitoring system:

Faculty maintains regular online attendance through **moodle system**, for all the classes and for all the students. This ensures the regularity of students in the class and laboratories. It also enables the parents to check the attendance **any time through internet**. We are also informing parents about the students' progress and regularity in the class through letters and phone calls.

8. Latest and up-to-date syllabus at par with industrial requirements:

Being a university, the institute has little freedom to design their own syllabus in collaboration with the industry and as per the latest technologies in the market. The syllabus is also updated regularly as per the need.

9. Fully equipped laboratories and other amenities:

All the laboratories of the department are fully equipped with latest equipments and the practicals are regularly performed to realize the theory taught in the classrooms. Each departments are having a **separate computer laboratories** with internet facility of **1 Gbps** radio link to cater the need of students and keep up to date with latest information.

10. Spacious buildings, class rooms and laboratories as per norms:

The university is spreaded over **300 acres of land**, housing college buildings, hostels, play grounds, open air theatre, canteen, shopping centre, bank with ATM, etc. **UVPCE posses three large buildings** for class rooms and laboratories as well as a common largest workshop shade for running their courses.

11. Spacious library with large number of books, journals and online journals facility:

The library possesses more than **30,000 books**, CDs of Video lectures, Journals, Magazines, E-books etc. It has a spacious reading room with comfortable seating arrangement. The library has got computer with internet facility to access the **online journals** and other resources.

12. Balanced evaluation system (Theory + Practical):

As compared to other state university, Ganpat University gives enough weightage to practical component for counting marks. It is observed that sometimes student is weak in explaining theory or he/she could not represent what they know in writing, than if, they can perform well in practical/viva examination, they can score good marks and finally secure good results. It is quite obvious that engineering is all about practical implementations of theory, so one should not forget the practical component for evaluation.

13. Full semester training into the industry to support direct placement into industries:

The institute arranges for full semester training for soft skill branches to ensure the proper training and placement to the industries.

14. Focused and regular placement activities for maximum placement :

We have central T&P cell, as well as departmental placement cell. We have a dedicated placement officer **Shri. Hitesh Khatri (84690 99899)**, looking after the student placements. We have tie-ups with some of the job-placement agencies for **off-campus placement**.

15. Encouraging students for co-curricular and extra-curricular activities:

Students are motivated and supported by the institute and faculty for participating the co-curricular and extra-curricular activities outside the college. They took part in state, national and also at international level sports and technical competitions, like ROBOCON, BAJA India, , IIT Techfest, Scatting, Cricket etc. They also won the prizes and bring name and fame to their parents and institute.

16. Utkarsh R&D Centre in collaboration with industries to inculcate the real habit of research and development:

Placement plays key role in shaping the future of the students, keeping this in mind the institute has created healthy relations with the prominent industries. This in turn is reciprocally advantageous. The industries get a chance to exploit the resource of the college for their R & D work and in return extend every possible help to the institute. As part of this initiative, UTKARSH Technology Applications Centre has been created.

17. Timely assessment and declaration of results:

The university ensures timely assessment of papers and declaration of results and declaration of results, so that the students of final year can avail the job or they can apply for master degree with their B.Tech. results.

18. An ideal environment for peer learning also due to various M.Tech. Courses running at the institute:

The institute also runs several post graduate programmes. Due to this there is a chance to interact with senior students pursuing M.Tech./MCA/Ph.D. programmes. This helps the under graduate students to take appropriate decisions regarding their future and scope of their fields.

19. Hostel, Bank, Post, Shopping centre, Gymnasium, Sports ground, dispensary etc:

The campus houses fully furnished hostel blocks with capacity of more than **3000 students (boys and girls both)**. The hostel has hot water facilities, play ground, study table, cupboard, **1 Gbps internet wi-fi connectivity**.
