

**“Engineer your
FUTURE”**

M. Tech. Transportation Engineering

A PG Course smartly designed to: Prepare graduate students to take up the most challenging task of next generation i.e. Transportation Engineering. The syllabus is dynamically designed to create most competent engineers employable to any global projects. which will be taught by qualified and experienced faculties and the field experts.

Vision

To emerged out nationally and globally as a prime institute with promising PG program of Industry needs. To carve and culture perfect professionals for the industries.

Mission

To serve the industry and Nation by providing competent engineers, planners and managers. To develop scientific approach to the issues and tasks of 21st century and providing technological solution.

Key Features

- Assignments on live projects
- Expert/professionals as the visiting faculties from various industries.
- Expert lectures by renowned professionals.
- Excellent timings from 7:00 hrs. To 13:00 hrs. [Ample opportunity to put in extra efforts]
- Frequent visits to prestigious ongoing projects and interaction including vocational internship.
- Studio Based learning with theory and practical approach
- Fully Wi-Fi and centrally AC campus with smart class facilities.

#University of Possibilities

Core Subjects

- Highway Material and Testing
- Public Transportation Planning
- Airport System Planning and Design
- Pavement Design, Construction and Evaluation
- Economic Evaluation of Transportation Project
- Rail Transportation Planning and Design
- Traffic Flow Theory Simulation
- Road Safety Audit
- Regional and Mass Transportation System Planning
- Soft Computing Techniques

Practical Assignments

- Analyzing the issues by appropriate scientific surveys.
- Providing the most befitting techno-economical solutions
- Planning the project implementation
- Cost economic analysis
- Awareness to advance equipments and machineries with practical deployment

Duration

- It is two year duration full time course
- Website: www.uvpce.ac.in
- www.ganpatuniversity.ac.in

Eligibility Criteria

- B.E. Civil/B.Tech Civil (50 % or Equivalent)
(Results awaited students can also apply)

Admission Process

- Admission will be done through ACPC as well as management seats will be filled by Ganpat University
- Information regarding admission and important dates will be updated on www.ganpatuniversity.ac.in
